Job Posting

JOB TITLE: Planning and Innovation Lead
REPORTS TO: Director of System, Strategy and Innovation
JOBS REPORTING: None
DIVISION / DEPARTMENT: Health System Strategy, Integration and Planning
LOCATION: North West LHIN, Thunder Bay, Ontario

POSITION SUMMARY:

Reporting to the Director, System Strategy and Innovation, the Planning and Innovation Lead serves as a resource and support to the Sub-Region Directors, program areas and assists in the identification and implementation of appropriate planning and development methodologies. Responsible for assisting with the management of complex planning projects and initiatives to support members on the health system planning and integration team regarding planning, project management, research, engagement activities and evaluation of programs and services.

In addition, the Planning and Innovation Lead is responsible for ensuring implementation of the Health Services Blueprint model and addressing Integrated Health Services Plan (IHSP) priorities and initiatives and, helps stakeholders successfully plan, execute and manage project and program management responsibilities.

The Planning and Integration lead is also responsible for planning, support community engagement activities and identify gaps and barriers in the local health system, to better coordinate, plan, develop and support implementation of strategies that advance the Health Services Blueprint model, IHSP priorities, improve health outcomes and support Sub-region population needs based health planning.

KEY ACCOUNTABILITIES:

Planning

1. Creates opportunities for community involvement by assisting with planning, coordinating and development of strategies that foster and promote positive relationships with diverse stakeholders.
2. Identifies emerging issues in the community that require a planning/development response.
3. Acts as a resource and provide project management support to the Directors and staff in the division to identify and support system design and development objectives, Health Services Blueprint model, Integrated Health Services Planning priorities, Ministry priorities.
4. Coordinates and contributes to the analysis of local health-care system based on provincial data, community input and other sources for purpose of identifying gaps and establishing planning priorities and system indicators.

5. Applies health equity lens to planning initiatives - inclusiveness of Indigenous Health in health planning and Francophone lens in planning.
6. Identifies, selects and uses appropriate planning approaches and needs-based predictive models with community input, to be used in the development and implementation of the Health Services Blueprint model.
7. Works with the project sponsors in monitoring and managing priority projects and preparing roll-up reports to the Directors and Vice President of the division, CEO and Board of Directors. Consolidates final reports, creates final dashboards, reviews and files monthly reports.
8. Promotes high-quality research and produces evidence to support health system planning.
9. Participates in and contributes to provincial and or inter-LHIN planning and development activities.
10. Provides and manages technical planning input, analysis and evaluation of health system improvement initiatives.
11. Provides support for internal and external collaborations and partnerships to advance the planning, design and development of community engagement activities and initiatives.
12. Monitors and evaluates outcomes achieved with program work.
13. Shares leading practices for coordination of planning, development and evaluation of projects with other LHINs and participates in dialogue on community engagement methods and performance evaluation
14. Provides advice and input from the planning and analytical perspective to the development of health care system strategies for stakeholders, planning, and the leadership team.
15. Manages project plans and assists with budget allocation for planning & community engagement initiatives.

Community Engagement

16. Provides input on community engagement activities for the Health Services Blueprint model.
17. Assists with and coordination of the delivery of LHIN community events including planning and logistics.
18. Participates in effective stakeholder consultation related to planning, assessing and evaluating the impact of recommendations and decisions, and promotes consensus among stakeholders for action required.
19. Works with and engages providers and stakeholders to develop improvement strategies and activities that enhance access, improve clinical integration across the care continuum at the Sub-region level and regionally.
20. Keeps up to date records on community engagement outcomes.

Integration

21. Develops innovative approaches for provider partnerships and selects among alternative approaches to achieve system coordination and integration aligned to the Health Services Blueprint model and transformation initiatives.

22. Works with healthcare provider organizations to build their capacity and facilitate implementation of quality improvement initiatives, measurement and change management projects to ensure effective performance and organizational success.
23. Other duties as assigned.

KNOWLEDGE

- Knowledgeable with project management tools and methodologies.
- Ability to select and apply multiple planning and evaluation methodologies as appropriate.
- Previous experience in carrying out technical research and analysis, preferably in the health-care sector.
- Quality improvement and evaluation experience in a healthcare environment.
- Excellent project management and presentation skills including budgeting, planning and communicating.
- Ability to work effectively in partnership with broad range of individuals and organizations of diverse backgrounds, preferably within the health-care sector.
- Superior interpersonal and relationship management skills, supported by excellent written and oral communication skills.
- Understanding of the Ontario health-care system, its stakeholders, programs and issues.

EDUCATION:

- Post-secondary /Master's Degree in health administration, health planning, business administration or relevant field.

EXPERIENCE:

- Minimum 3-5 years of related experience.
- Previous experience in community outreach, consultation or stakeholder management and familiarity with current theory and techniques of community engagement.
- Demonstrated experience with facilitation techniques and processes, including experience developing and facilitating large complex sessions involving diverse stakeholders.
- Planning experience, preferably within a health-care environment, with proven success in leading planning projects.
- Skills and experience in event planning and implementation.
- French language skills are an asset.
